

DEMOCRATIC MEET ENDS WITH HARMONY PREVAILING

St. Louis, June 17.—Vance McCormick, newly elected national chairman of the Democratic party, plans to hold a conference with President Wilson during the next few days. Details of the coming campaign will then be worked out.

The Democrats left St. Louis believing Wilson's re-election already assured. Only the fight on the suffrage plank and a small kick against McCormick from the Old Guard disturbed the harmony that has prevailed throughout the week. Wilson had his way on the platform and it is expected that all Democratic factions, including Tammany and the Roger Sullivan outfit, will work for a Democratic triumph.

The delegates, disgusted at the treatment given them in St. Louis, are already boosting Chicago for the 1920 convention.

Wm. Jennings Bryan is enthusiastic over the convention and the platform adopted. He says he's eager to get out on the stump and sound the praises of the Wilson administration.

RESTA AND DE PALMA TO FIGHT FOR SPEED KINGSHIP SUNDAY

Who is racing king of the world today?

That large and interesting question is going to be answered Sunday afternoon at Speedway park, when Ralph De Palma and Dario Resta take to the two-mile racing bowl for three heats, one of 50 miles, another of 24 miles and a final run of 10 miles.

All week the two rival Italian speed marvels have been tuning up their giant mounts and records are expected to be shot to smithereens in the championship run.

Resta and De Palma, from the public's standpoint, look about on a par. The former has grabbed a majority of the big victories this year, but in almost every case an accident to De Palma's car has put him out of it at the last minute. Both claim the kingship. Sunday afternoon will put one of them on top without question. Whoever gets two out of the three runs will be proclaimed champion.

The racing starts at 3:30 Sunday afternoon. Prices of admission have been reduced to within the reach of all and a big crowd is expected out at Speedway park.

Speedway officials have handed out some good advice. Get started early! There is plenty of advance excitement watching the drivers tune up. Avoid the mob that is bound to result if everybody waits until the last minute.
